A young girl from the scenic hill station Darjeeling had a dream to make it big in the profession she loves - Law. This lady fought all odds to reach the country's capital city to begin her practice. Today, she has a multi-city practice and works out of New Delhi, Mumbai, Hyderabad and Chennai.

Sushila Ram Varma is a gold medallist in B.A.LLB from North Bengal University, Darjeeling, India and holds a Post-Graduate Diploma in Intellectual Property Rights Laws from National Law School, Bangalore. She is the Co-Founder of The Indian Lawyer & Allied Services, a Multi-City Commercial and Business Law Firm. She is currently the Chief Consultant of this Firm.

A self-made first-generation professional, she believes that if you dare to dream, you can achieve any milestone and success in life. Her Mantra is if you are determined, the results will follow.

She joined the Legal Profession to make a mark in the society, as she firmly believes that Law is

a noble profession. Perhaps the commercial considerations of some professionals has made people believe otherwise.

Her clientele ranges from the start-up to the billion-dollar company. She is focused towards encouraging foreign companies to do business in India.

She makes every effort to be transparent and gives her clients the best advice. Her Firm's motto is to be Reliable, Responsible and Resourceful. With this in mind, she encourages her Team to be transparent and honest in their dealings and always work towards the best interests of the client.

She practices Law with a result-oriented approach of finding quick solutions. It has been her endeavour to try and settle all disputes through negotiations and out-of-court settlements whenever possible, as litigations in India take very long for closure. She only advises Litigations / Arbitrations when everything else fails.

She strongly believes that legal awareness is essential for every individual and that as a legal

professional, she has an unwritten commitment to society so as to generate awareness on important legal issues.

Sushila Ram Varma suggests that all businesses should consult Lawyers from their inception to help them grow. She recommends that taking timely legal advice often saves a client huge money, time and hardship.

On her part, she is a mentor, motivational speaker, blogger and social worker. She has started the Blog, <https://theindianlawyer.in/blog/> that gives weekly updates on important judgments. She also has two YouTube Channels under the name of TIL Legal Speak and TIL Legal Fundamentals, where she and her Team regularly discuss important legal topics and share their expert comments on the same.
